

BIGSTORY NETWORK — GUEST BRIEFING

Confidential | Prepared for: Rajul Tandon, Founder & CEO, Enalytix

Welcome, Rajul.

We're genuinely thrilled to have you on BIGSTORY Network. This session is dedicated entirely to you and Enalytix — and we want you to walk in feeling prepared, comfortable, and ready to have a real conversation.

Here's everything you need to know before we begin.

THE SESSION AT A GLANCE

Date	Thursday, 7th May 2026
Time	12:45 PM
Duration	Approximately 1.5 – 2 Hours
Format	Recorded Conversation (Video)
Platform	https://meet.google.com/mgf-hkua-wii

HOW THE SESSION IS STRUCTURED

The conversation will flow across two distinct parts:

Part 1 — BIG SHOT: The Enalytix Story Duration: ~60–75 minutes

This is where we go deep into the business. Think of it as a founder-to-journalist conversation — candid, detailed, and sharp. We'll explore:

- The origin of Enalytix and the problem you set out to solve
- How video analytics evolved from a security tool to a business intelligence platform
- The retail sector in India — where it is, where it's going, and where AI fits
- Your approach to product: retail-first design, privacy-first architecture, plug-and-play deployment
- Clients like Nike, Zivame, and Biba — what working with them taught you
- The competitive landscape: who else is playing in this space and what sets Enalytix apart
- Revenue model, scale, and what 1,100+ deployments looks like operationally
- The role of AI in India's physical retail future
- What's next for Enalytix — roadmap, expansion, ambitions

Part 2 — The Challengers: Rajul Tandon's Journey Duration: ~30–45 minutes

This is the personal part. We want to understand the person behind the company — not just the milestones, but the decisions, the doubts, and the drive.

- Your 20+ years across the US, UK, and India — how did that shape how you think about building?
- What made you start Enalytix in 2020 — why that year, why that idea?
- The early days: what was harder than you expected?
- The moment it clicked — when did you know this was going to work?
- How you and Neerja divide the work as co-founders
- What you've had to unlearn from your corporate IT career
- The kind of leader you're trying to be
- What success looks like for you — personally, not just professionally
- What's left on your list

A FEW THINGS TO KNOW

- There are no wrong answers. This is a conversation, not an interrogation.
- You're welcome to say "I'd rather not go into that" on anything — we'll move on without hesitation.
- We may go off-script. The best moments usually happen when we do.
- If there are specific topics, campaigns, or stories from Enalytix you'd love us to highlight, please share them with us before the session and we'll work them in.
- The recording will be used for editorial content on BIGSTORY Network across both the BIG SHOT and The Challengers verticals.

BEFORE THE SESSION — A SHORT CHECKLIST

- ✓ Stable internet connection
- ✓ Good lighting (face the light source, don't sit with a window behind you)
- ✓ A quiet space with minimal background noise
- ✓ Water nearby
- ✓ Any stats, numbers, or data points you'd like to reference — have them handy

ABOUT BIGSTORY NETWORK

BIGSTORY Network is India's destination for in-depth business journalism, founder stories, and ideas that matter. Our verticals — JUST IN, BIG SHOT, The Challengers, UN THiNK, and more — are built for readers who want more than headlines. We cover the people, companies, and forces shaping India's economy.

For any questions before the session, please reach out to Minaketan Mishra at business@bigstorynetwork.com / +91 9789091524 .

We'll see you on the 7th.
